

Please share this with your people ASAP.

We are pleased to announce on February 12, 2009 we received from the International Brotherhood of Teamsters a letter declaring an unconditional offer to return to work. It appears the Teamsters will give up their strike.

We have stated all along that we believed this strike was not in the best interest of our employees, customers or Oak Harbor Freight Lines.

Oak Harbor Freight Lines is surprised by what appears to be a sudden change in course by the Teamsters and we are assessing all the legal implications of the recent letter from Mr. Hobart.

We will give you further updates as information becomes available. As always, you can find copies of the return to work memo and other documents on oakhanswers.com in the negotiations update section
